Business Leadership and Entrepreneurial Spirit

- Leadership: How you influenced others or took responsibility to achieve outcomes
- Entrepreneurial spirit: How you showed initiative in identifying and acting on opportunities or challenges
- Ethical conduct: How your values guided your decisions or actions

(Maximum 350 words) Please provide the word count at the end of your answer.

Placeholder example:

Throughout my academic and extracurricular pursuits, I have demonstrated leadership, entrepreneurial spirit, and ethical conduct. As president of my school's business club, I motivated team members to develop projects that resulted in a successful community event, which increased engagement and interest. I took responsibility for organizing the event and making sure everyone contributed, showing my ability to lead and work with others. When I saw a need for more financial literacy among my peers, I started a peer-tutoring program. I took the initiative to plan the program, recruit volunteers, and find resources. I also reached out to local businesses for support, which helped the program grow. This experience showed my willingness to identify opportunities and act on them to create something beneficial for others.

My values of honesty and fairness guided my decisions throughout these activities. I made sure that all fundraising and outreach efforts were transparent and ethical, earning the trust of those involved. I believe that leadership means inspiring others while taking responsibility for the group's success. I always aimed to communicate clearly and ensure everyone felt included and valued. My entrepreneurial spirit is reflected in how I look for ways to improve and create new opportunities. I am not afraid to take risks or try new approaches if I believe they will make a positive difference. I also stay true to my values, which help me make decisions that are fair and respectful to everyone involved. These experiences have taught me the importance of acting ethically and taking initiative, qualities I plan to carry forward in my future career in business.

Contributions to Women, Girls, and/or Climate Justice

Please describe your most significant contributions to addressing global or local issues affecting women and girls and/or climate justice. Your response should include:

- The issue addressed and how it affects women and girls and/or climate justice
- Your role and individual contributions. Highlight the specific impacts of your involvement, even if you were part of a team
- Any partnerships or wider team you collaborated with
- Outcomes achieved towards addressing the issue

(Maximum 200 words) Please provide the word count at the end of your answer.

Placeholder example:

My most significant contribution was starting a workplace campaign to address gender-based discrimination and harassment, which can hold women back in their careers and affect their well-being.

I was motivated by my own experiences and a desire to create a safer, fairer environment for women and girls at work. I organized unconscious bias training and helped set up a peer support group to encourage respectful behavior. I worked closely with HR and partnered with local women's groups to make sure our efforts matched broader equality goals.

As a result, more people reported issues, and the organization improved its policies on harassment. The culture gradually became more open and respectful. I learned that ongoing education and strong leadership are key to lasting change. This experience showed me how small, focused efforts can make a real difference and how working with others is essentialto creating a more inclusive environment.
